Social Media Posts for Champions

Dear [Name],

As you know, I'm looking for a living liver donor, and I could use your help getting the word out. One of the best ways to reach potential donors is through the people who know me and care about me.

Would you be willing to share my story and microsite link on your social media accounts? Your post could reach someone who is willing to consider donating a portion of their liver or knows someone who might be.

I've included a few sample posts below to make it easy. Feel free to choose one and personalize it, or use your own words. All you need to do is copy and paste the message into your social media profile and add my microsite link: [link]

Thank you for helping me spread the word. Every time someone new sees my story gives me another chance to connect with a potential donor.
